---

I am a Computer Engineer student from D.Batu University pursuing my final year. I especially have prior knowledge of Java, also have good hands-on on it, I am passionate about Back-end Engineering with having good problem-solving skills, and enjoy writing clean code.

---

## • Projects :

### Sudoku Solver Android Application

- Sudoku is a logic-based, combinatorial number-placement puzzle.
- In classic Sudoku, the objective is to fill a  $9 \times 9$  grid with digits so that each column, each row.
- Each of the nine  $3 \times 3$  subgrids that compose the grid contains all of the digits from 1 to 9.
- Tech Stack Used: **Java, XML**

### Calculator Android App

- The calculator app is useful for calculating mathematical operations quickly and efficiently.
- It has additional functionalities like calculating the BMI, areas, discount rate, etc.
- It has a simple UI design and is easy to use.
- Tech Stack Used: **Java, XML**

---

## • Certifications :

- Introduction to Career Skill in Software Development (Linkedin)
- Developer Virtual Experience Program - Accenture (Forage)
- Data and Analytics (Cloud Counselage)

---

## • Skills :

Java | Python | DBMS | SQL | Problem-solving | Communication | Gitlab | Postman

---

## • Education :

### B.tech in Computer Engineering

2021 - Present

- A.G. Patil Institute of Technology - 7.59 CGPA

### Diploma in Computer Technology

2018 - 2021

- Government Polytechnic, Solapur - 89.89%

---

## • Achievement :

- Winner in State-Level Technical event (Coding Competition) - N.K. Orchid College, Solapur
- Winner in state-Level Techfest event (Coding Competition) - A.G. Patil College, Solapur
- Training and Placement Co-ordinator (College level) - A.G. Patil College, Solapur
