I am a Computer Engineer student from D.Batu University pursuing my final year, Especially I have prior knowledge of Java, and Python and also has good hands-on on it, I am passionate about Back-end Engineering with having good problem-solving skills, I enjoy writing clean code.

Projects

Sudoku Solver

1. Sudoku is a logic-based, combinatorial number-placement puzzle.
2. In classic Sudoku, the objective is to fill a 9 × 9 grid with digits so that each column, each row.
3. Each of the nine 3 × 3 subgrids that compose the grid contains all of the digits from 1 to 9.
4. Tech Stack Used: **Java, XML**
5. **GitHub Repository** - Link

Chatbot Website

- Primary students can give quizzes on maths & science subjects.
- Each quiz contains 10 mcq and the user has to write his answer choice on chat after completing the quiz user will get a score.
- Tech Stack Used: **HTML, CSS, Javascript, Jquery.**
- **GitHub Repository** - Link
- **Website** - Link

Calculator Android App

- The calculator app is useful for calculating mathematical operations quickly and efficiently.
- It has additional functionalities like calculating the BMI, areas, discount rate, etc.
- It has a simple UI design and is easy to use.
- Tech Stack Used: **Java, XML**
- **GitHub Repository** - Link

Education

B.tech in Computer Engineering   *2021 - Present*

- A.G. Patil Institute of Technology - 8 CGPA

Diploma in Computer Technology   *2018 - 2021*

- Government Polytechnic, Solapur - 89.89%

Skills

- Java
- Python
- SQL
- DBMS
- HTML
- CSS
- Javascript
- Problem-solving
- Coding-debugging
- Communication

Achievements

- Winner in State-Level Technical event (Coding Competition).
- Training and Placement coordinator.
- Scored **95/100** in Maths in 10th class and **70/70** in Diploma.
